

**A New Toolkit to help your library provide E-Government Services**  
[www.ala.org/egov](http://www.ala.org/egov)

***61 percent of libraries report providing access to government information is one of the most critical Internet services they provide.***

The Committee on Legislation's E-Government Services Subcommittee's electronic e-government toolkit was created to assist librarians with addressing this growing trend.

To view the toolkit, please visit [www.ala.org/egov](http://www.ala.org/egov).

The hope is that this will be a living document and the subcommittee will be updating it as new information becomes available. We would like to hear from you, so please email [jmcgilvray@alawash.org](mailto:jmcgilvray@alawash.org) if you have any ideas on how the toolkit can be improved.
